ABOUT

My name is Serxhio Gugo and I'm an iOS Engineer based in Connecticut, previously NYC. I'm a highly motivated engineer with 4+ years of experience programming in Swift. I am fascinated by how mobile devices and applications influence our daily lives. I have always had a passion for iOS Development or technology in general. I have a good eye for design, seeking to combine innovation and technology to build quality products.

WORK EXPERIENCE

iOS Engineer

Caesars Digital - New Jersey / Sept 2020 – Present

<https://www.caesars.com/>

- Built Registration/Login using multiple RESTful API's while implementing Email/Password/Address/Phone Number validation.
- Developed Account Menu with 16+ journeys and used Deep linking to redirect the app to different journeys from our website. Integrated Caesars Rewards into the app.
- Created completely re-usable UI for SportsBook betting and more.
- Organized the app to account for multi-state while using GeoComply and CoreLocations to identify user location.
- Properly mocked and Unit Tested all my features, which lowered our bug results by 21%.

iOS Engineer

Gesture - New York / Jun 2020 – Sept 2020

<https://www.yourgesture.com/>

- Worked closely with the back-end team to design and develop Gesture - Happiness Delivered.
- Developed Event Planning feature using Firebase Cloud Messaging and Cloud Functions.
- Developed Phone number Authentication feature using Firebase and Twilio.

iOS Engineer

Freelance

Client: AppCrunch LTD / Jun 2018 – May 2020

- Worked closely with the back-end team to design and develop Lollipop Dating App. Link: <https://apple.co/2KYDXri>
- Develop the chat functionality of the app.
- Implement camera functionality using AVFoundation.
- Refactoring of the base code from Objective-C to the latest Swift syntax.
